PROFESSIONAL SUMMARY

Operations and Support Operations professional with 4+ years of experience in an international IT environment at Red Hat, supporting EMEA Global Support Services. Experienced in service delivery, SLA/KPI management, incident prioritization, escalation handling, reporting, and cross-functional coordination between engineering, support teams, and senior management. Strong background in process optimization, operational transparency, and automation, with a practical, data-driven approach to improving service quality and team efficiency.

CORE SKILLS

Operations & Process: Support Operations, Service Delivery, Incident Management, SLA/KPI Management, Escalation Management, Process Optimization, Operations Reporting, Team Coordination

Tools & Data: Salesforce, Tableau, Jira, ServiceNow, SQL, Google Sheets, Slack Automation

Communication: Cross-functional Communication, Stakeholder Management

PROFESSIONAL EXPERIENCE

Support Operations Lead / Associate Project Manager

Red Hat — Global Support Services, RHEL, EMEA | June 2021 – January 2026

- Coordinated support operations across the EMEA region, handling 400+ support cases per month; monitored SLA performance, case prioritization, and critical incident workflows
- Managed escalations and complex support cases, helping reduce resolution delays and improve case handling
- Built effective communication between engineering teams, support teams, and management
- Worked directly with the Director of Support EMEA and senior management on operational topics
- Analyzed support data using Salesforce and Tableau to identify bottlenecks and improve operational visibility; prepared monthly and quarterly reports on SLA, CES, team workload, and support performance metrics
- Introduced Slack-bot automation to reduce manual work and improve process efficiency
- Supported shift planning and operational coordination across the EU region; participated in payroll-related operational processes for France, considering local requirements
- Organized and facilitated regular operational meetings and internal initiatives

Key Achievements:

- Maintained SLA performance at 90%+ for IRT and ORT
- Supported CES performance at 4.0+
- Reduced manual workload through automation and process improvements
- Improved transparency of support operations and reporting

Additional: organized Customer Service Week and facilitated DevConf (Brno); led internal swag/merch initiatives; contributed to company culture programs.
